Why diversity, equity, & inclusion (DEI) and why now?

The investment industry is facing an unprecedented level of simultaneous, multi-dimensional challenges:

- Shifting responsibility for long-term saving to the employee changes product need
- Industry stakeholders questioning value for money in the entire investment value chain
- Regulation is driving greater transparency in fees, risk, performance and culture
- Digital technology is changing distribution
- DEI can bring credibility to ESG and sustainable investing
- Talent recruitment and retention are influenced by DEI
- Intergenerational employee expectations of psychological safety are increasingly heterogenous
- Societal scrutiny via social media means trusted advisor status is harder to earn for individuals and entities.
Women in the workforce, in the investment management industry, and CFA Institute membership: Key Markets

Percentage women workforce participation rates vs. investment industry vs. CFA Institute members

*‘Key markets’ are defined by CFA Institute.

Principles based

Four Principles cover the investment professional career lifecycle

- One specific Principle for asset owners, consultants and asset allocators
- One specific Principle for measurement – determining metrics to form industry KPIs

Underpinned and informed by tested Implementation Guidance from the Experimental Partner Program and leading DEI experts

Collaborating with Diversity Project North America, Nicsa

60-day public consultation launched 7 July 2021

Regional versions will be offered in 2022/23

Implementation guidance to be updated annually

Annual confidential reporting will drive further evolution

CFA Institute will report its overall findings on industry progress annually.

Requires commitment, collaboration, accountability.
### Diversity, Equity & Inclusion Code (USA and Canada) – Six Key Principles:

<table>
<thead>
<tr>
<th>Pipeline:</th>
<th>Talent acquisition:</th>
<th>Promotion and retention:</th>
<th>Leadership:</th>
<th>Influence:</th>
<th>Measurement:</th>
</tr>
</thead>
<tbody>
<tr>
<td>we commit to expanding the diverse talent pipeline.</td>
<td>we commit to designing, implementing and maintaining inclusive and equitable hiring practices and on-boarding practices.</td>
<td>we commit to designing, implementing and maintaining inclusive and equitable promotion and retention practices to reduce barriers to progress.</td>
<td>we commit to using our position and voice to promote DEI and improve DEI outcomes in the investment industry. We will hold ourselves responsible for our firm’s progress.</td>
<td>we commit to using our role, position, and voice to promote and increase measurable DEI results in the investment industry.</td>
<td>we commit to measuring and reporting on our progress in driving better DEI results within our firm. We will provide regular reporting on our firm’s DEI metrics to our senior management, board and CFA Institute.</td>
</tr>
</tbody>
</table>

In Canada, we commit to implementing the Truth and Reconciliation Commission of Canada Call to Action #92, and we embrace Indigenous reconciliation.
In addition to the Principles, we undertake to accelerate and amplify their impact by making the economic, business, and moral case for DEI as follows:

<table>
<thead>
<tr>
<th>COLLABORATE</th>
<th>SHARE</th>
<th>PROMOTE</th>
</tr>
</thead>
<tbody>
<tr>
<td>with other firms to publicize careers in the investment industry and provide informational materials, combined with concerted outreach to extend economic opportunities.</td>
<td>tried and tested DEI practices with other signatories, working and learning together to develop new, aspirational strategies, building awareness that integrating DEI can improve investment outcomes and enhance business success.</td>
<td>acceptance and implementation of the Principles within the investment industry by speaking about our progress and socializing the DEI Code and the Principles with our global workforce and colleagues to improve understanding of the wider society we serve.</td>
</tr>
</tbody>
</table>
We recognize that a diversity of perspectives will lead to better investor outcomes; an inclusive and equitable investment industry will better serve our diverse society. Further, we recognize that an organization with an inclusive culture, awareness and education, and effective working relationships is a better place to work. We also understand the importance of improving equity while acknowledging the magnitude of the task. Therefore, our scope is within the workplace where we have direct agency and where we have influence as investors. Our commitment to this Code is a long-term commitment to cultural change at all levels in our organization.
