

Response Form
for the
Consultation Paper on the development of the
CFA Institute ESG Disclosure Standards for Investment Products

CFA Institute is developing a voluntary, global industry standard, the CFA Institute ESG Disclosure Standards for Investment Products (the “Standard”), to establish disclosure requirements for investment products with ESG-related features. The purpose of the Standard is to provide greater transparency and comparability for investors by enabling asset managers to clearly communicate the ESG-related features of their investment products. The goal for this Consultation Paper is to elicit feedback on the proposed scope, structure, and design principles of the Standard. **All comments must be received by 19 October 2020 in order to be considered.**

Providing Feedback

Public commentary on this Consultation Paper will help shape an Exposure Draft, the initial version of the Standard, which is expected to be issued in May 2021. Comments should be provided in this response form. You may address as few or as many of the Consultation Paper’s questions as you wish. Unless otherwise requested, all comments will be posted on the CFA Institute website.

Guidelines for submission

Comments are most useful when they:

- provide a rationale and support for the opinions expressed, and
- suggest alternative solutions in the event of disagreement.

There is a section for general comments at the end of this response form.

Positive comments in support of a proposal are equally as helpful as those that provide constructive suggestions for improvement.

<GENERAL_COMMENTS>

I think the CFA Institute standards are an integral part of Governance, and should not be ignored. I fear a lack of transparency in ESG products on risk and fees, and any CFA ESG standards should enforce the excellent principles of the CFA Asset Manager Code and GIPS
