The CFA Institute Research Challenge is a great test for all students who are bold enough to face it. But, like any great challenge, the opportunities and rewards it offers are even greater.

This annual global equity research competition provides university students with hands-on mentoring and intensive training in financial analysis. Working in teams, students gain real-world experience as they assume the role of research analysts and are judged on their ability to value a stock, write a research report, and present their recommendations.

Is your university up to the challenge? Form your team and give your students the opportunity to compete against their peers from other schools to see who will become the local, regional, and global champions. Your participation also gives you the chance to showcase your university on a highly visible local, national, and global stage.

HOW THE CHALLENGE WORKS

Local CFA® Societies work with universities to assemble teams of three to five undergraduate and/or graduate students. Teams research and analyze a designated publicly traded company; prepare a written report on that company that supports a buy, sell, or hold recommendation; receive advice and support from a faculty advisor and an industry mentor; and present and defend their findings to a panel of industry experts. Winners from the local competitions advance to regional competitions in the Americas, Asia, and Europe, culminating in a global final.
