Effective Online Presentations That Energize Audiences and Increase Your Influence

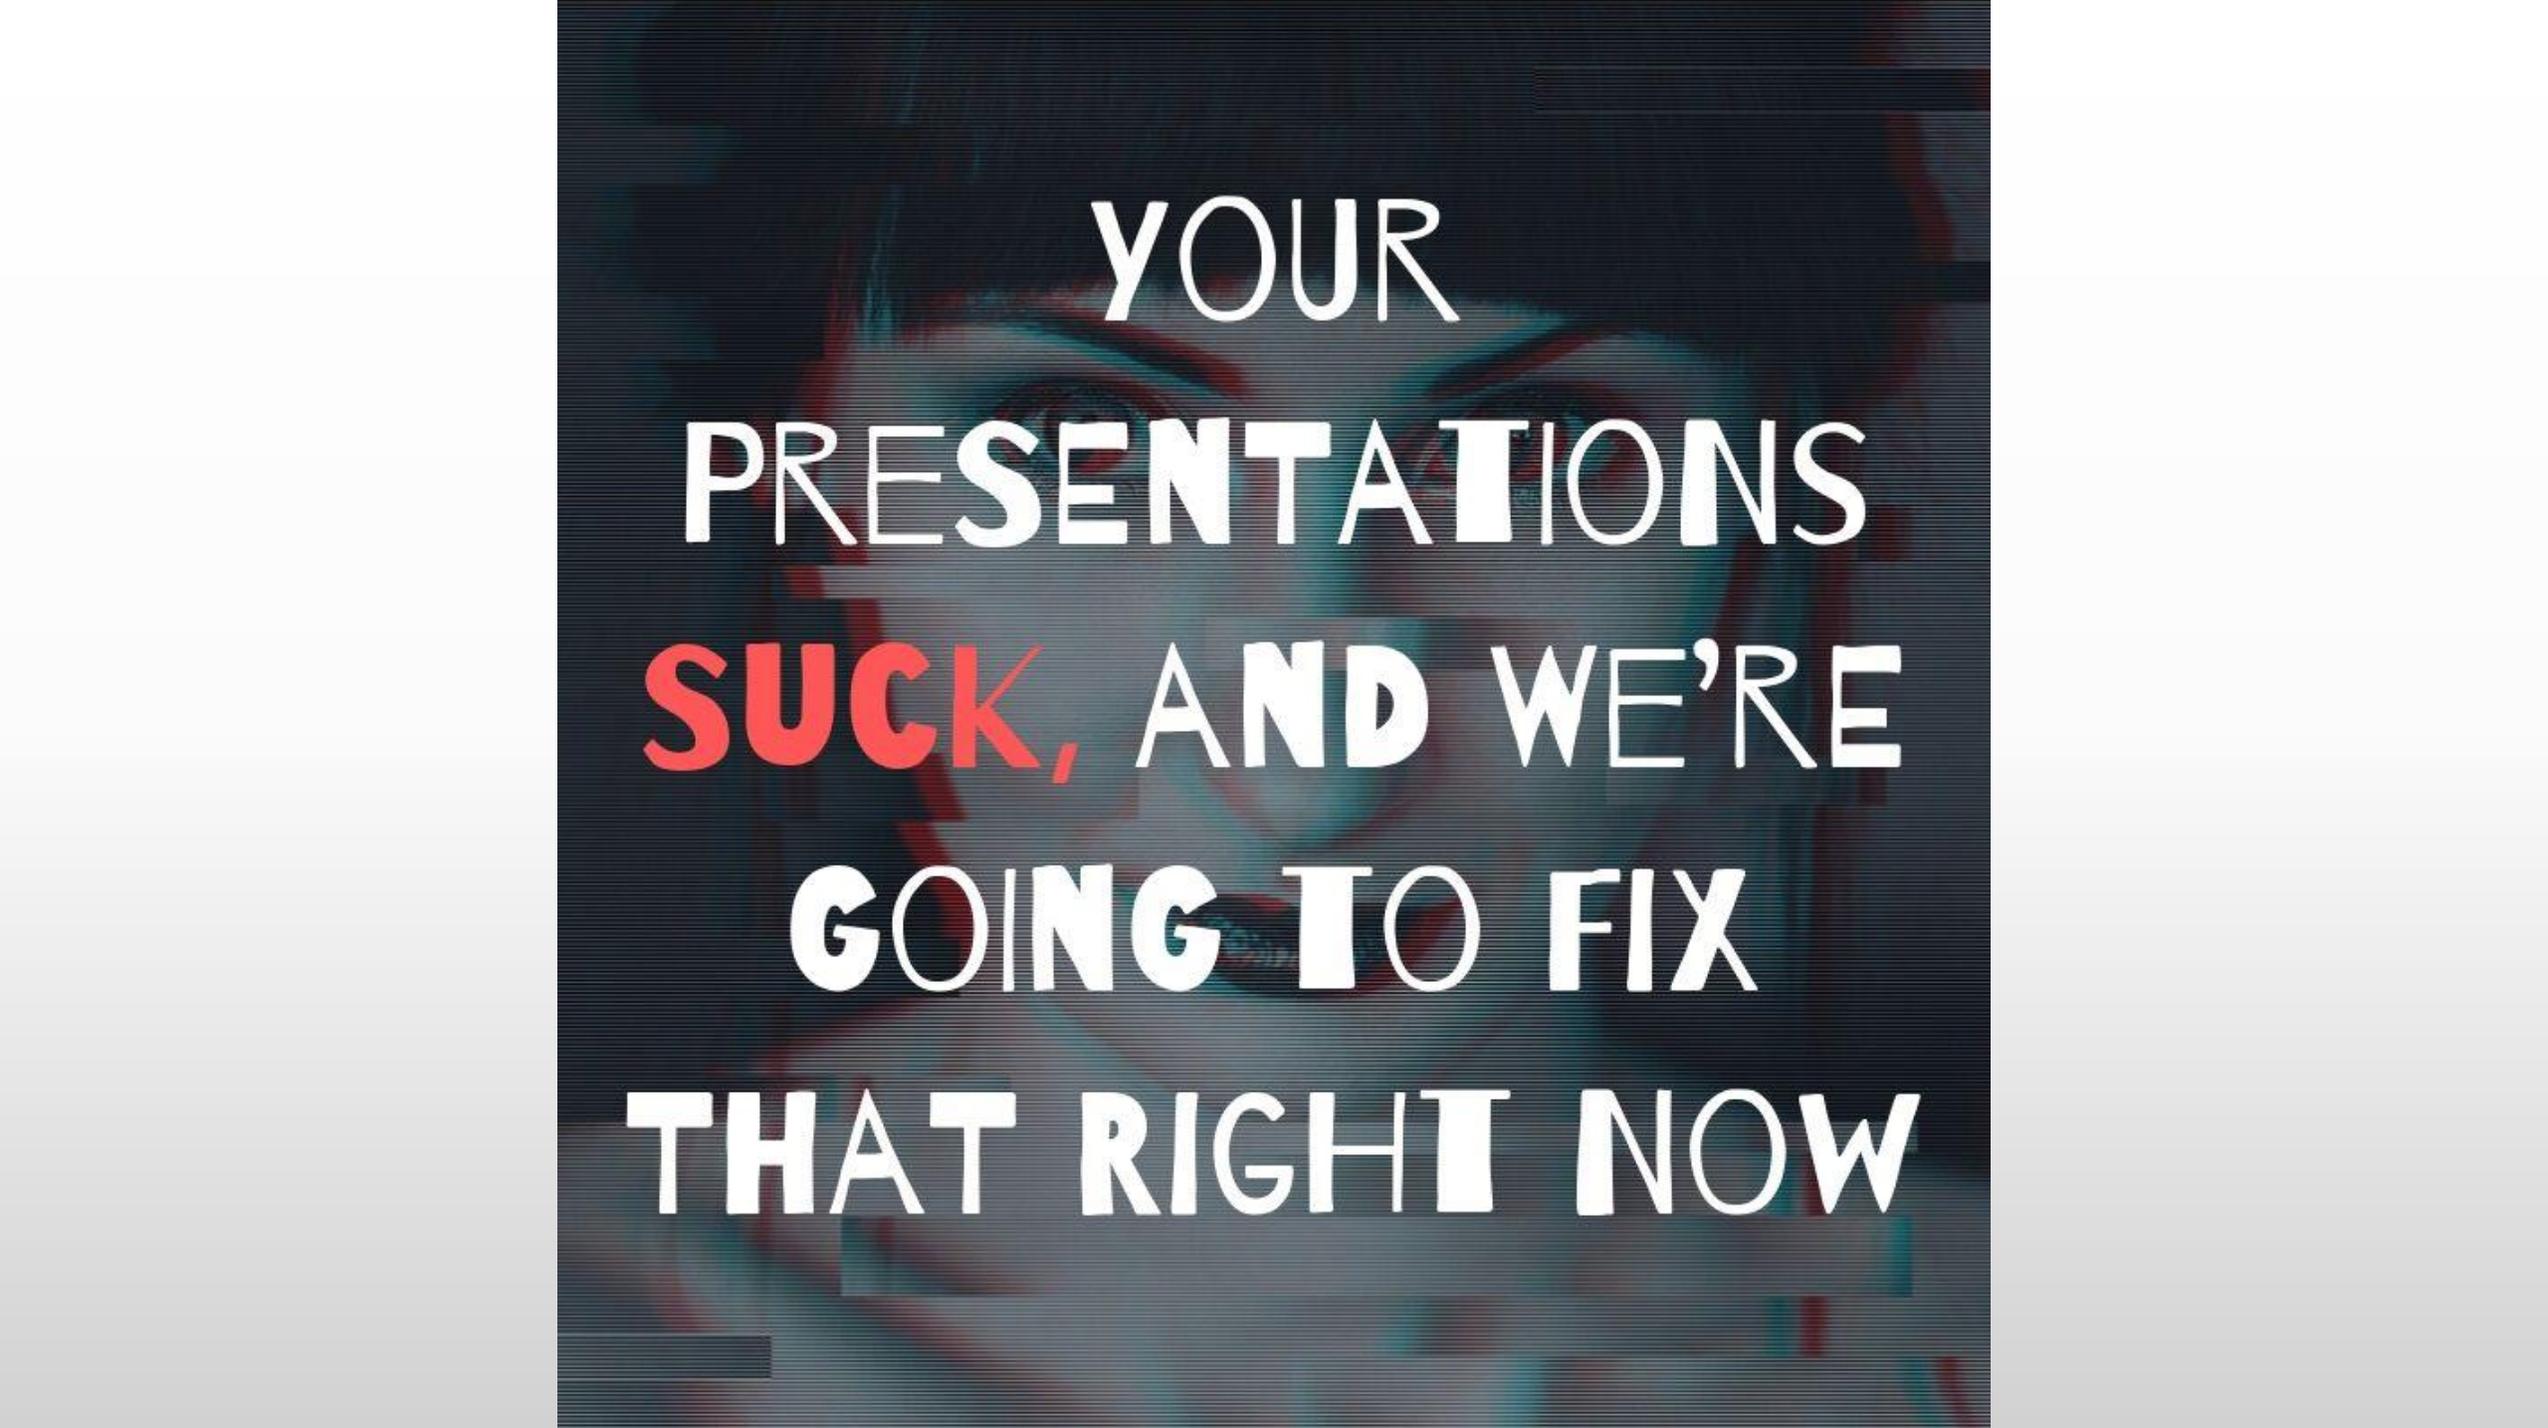

Andrew Stotz

Ooops...

That's not correct...

Today's presentation is called...

YOUR
PRESENTATIONS
SUCK, AND WE'RE
GOING TO FIX
THAT RIGHT NOW

YOU

Call to action!

I want **YOUR** next
presentation to be a
Great Presentation

Before we get started...

- ★ I have built my career analyzing companies and...

Andrew Stotz, PhD, CFA

Before we get started...

- ★ ...recently I have been conducting some exhaustive financial research on a mid-sized company listed in a stock market in Asia
 - **Let's call the company "ABC"**
- ★ I finally got a chance to visit the management of the company and what I found confirmed my research findings that this stock is...
 - **Cheap, has growing earnings, and is unknown**
- ★ Would you like to hear more?

Andrew Stotz, PhD, CFA

ABC is Cheap

- ★ Trading at 8x PE vs 11x for its industry
- ★ It has taken me three years of searching to find such a cheap stock
- ★ Some may say ABC has been cheap for years
 - **But isn't buying low the whole point of investing!**

Andrew Stotz, PhD, CFA

ABC is Growing

- ★ My forecast is that earnings should double in the next three years
- ★ My meeting with management confirmed that they've signed a major new deal that will drive that growth
- ★ Some may say ABC has had delays in implementation in the past
 - **But the new management team delivered the most recent project on time**

Andrew Stotz, PhD, CFA

ABC is Unknown

- ★ Because ABC is a mid-cap company, only two analysts are covering it
 - **But no analyst has visited the company for at least six months and forecasts are nine months old**
- ★ Some may say the market doesn't care about mid-caps and won't push up the price, but
 - **The price is already starting to move**

Andrew Stotz, PhD, CFA

So...

- ★ ...would you like to know the name of company ABC?
- ★ But wait, we are not here to talk about stocks, we are here to talk about how to give a great presentation!
- ★ So let's come back to this at the end of today's presentation!
- ★ Now, on with the show!

Andrew Stotz, PhD, CFA

Your Presentations **Suck** and We're Gonna Fix that Right Now

Most presentations waste time and money

Most presentations are bad and don't achieve their objective

Most presentations waste time and money

Most presentations are bad and don't achieve their objective

We're gonna make your next presentation a Great Presentation

Most presentations waste time and money

- ★ Ian Parker in The New Yorker magazine referred to Microsoft estimates that there are more than 30 million PowerPoint presentations made each day
- ★ Dave Paradi who blogs at ThinkOutsideTheSlide.com took this statistic and elaborated on it

Andrew Stotz, PhD, CFA

Most presentations waste time and money

- ★ He assumed this about meetings:
 - **Four people per presentation**
 - **Half-hour presentation on average**
 - **Wasted time due to a poor presentation is 25% of the presentation time**
- ★ Then he arrived at a waste of 15 million person hours per day due to bad presentations

Andrew Stotz, PhD, CFA

Most presentations waste time and money

- ★ At an average salary of US\$35,000 per year for those attending the meeting
- ★ The cost of the wasted time due to bad presentations is a staggering US\$252 million each day

Andrew Stotz, PhD, CFA

An employee came to me with a presentation

to give the next day

She told me that she had worked on it for 5 days

Non-stop

Her fatal mistake was that she didn't structure her presentation around any clear points

What side of your brain is most dominant?

Andrew Stotz, PhD, CFA

Left brain dominant

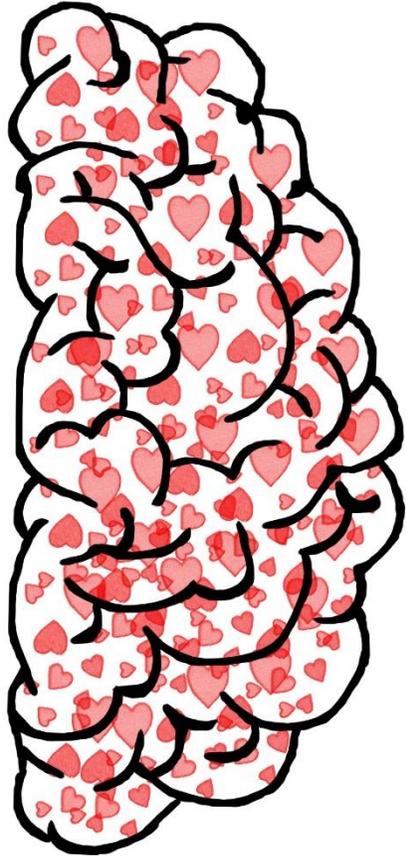

- ★ Thinks logically and linearly
- ★ Likes order, evidence and facts
- ★ Good with language, numbers, and analytical thinking

Andrew Stotz, PhD, CFA

Right brain dominant

- ★ Thinks in a free, creative style
- ★ Likes art, music, emotions, pictures, and stories
- ★ Good with expression, emotional intelligence, instincts, and imagination

Andrew Stotz, PhD, CFA

Logical Left Larry

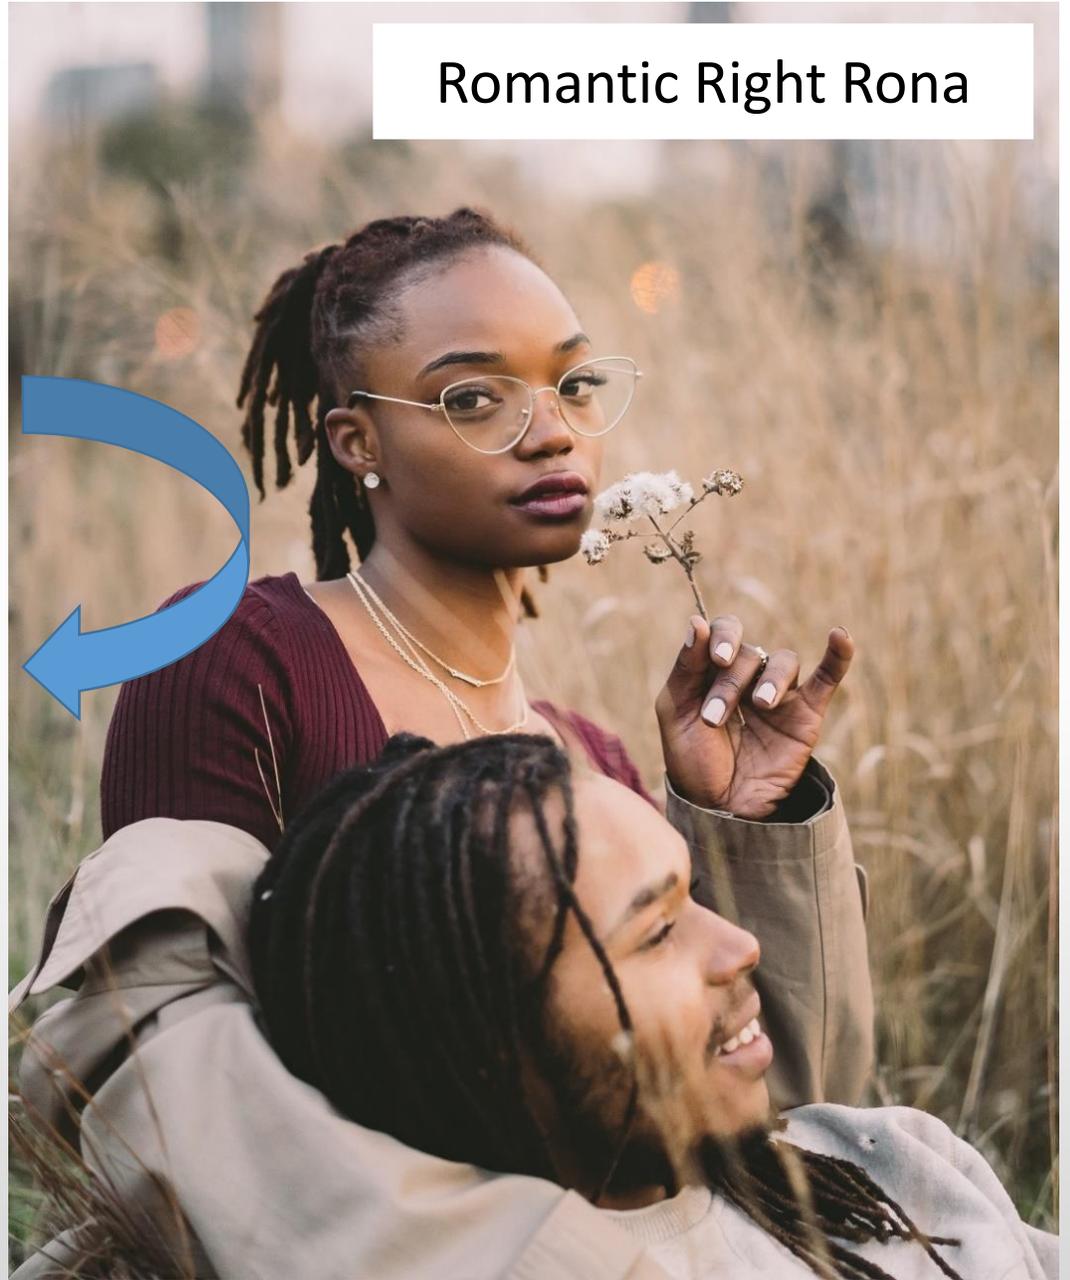

Romantic Right Rona

Why is this important?

- ★ Because people who are Logical Left tend to create their presentations around logic and evidence
- ★ And people who are Romantic Right tend to create their presentations around stories and appeals to emotions

Andrew Stotz, PhD, CFA

How to win the “other half” of the audience

- ★ When you construct an argument, which one of the two do you appeal to?
 - **You will probably create your presentation based on whether you are left or right brained**
- ★ But if half your audience does not think like you, then you will lose them with your presentation

Andrew Stotz, PhD, CFA

How to win the whole audience

- ★ For those who are Romantic Right
 - **Don't just make statements and tell stories**
 - **Show facts and evidence to convince Logical Left Larry**
- ★ For those who are Logical Left
 - **Don't just rattle off a list of facts**
 - **Instead, bring energy and emotion to excite Romantic Right Rona**

Most presentations are bad and don't achieve their objective

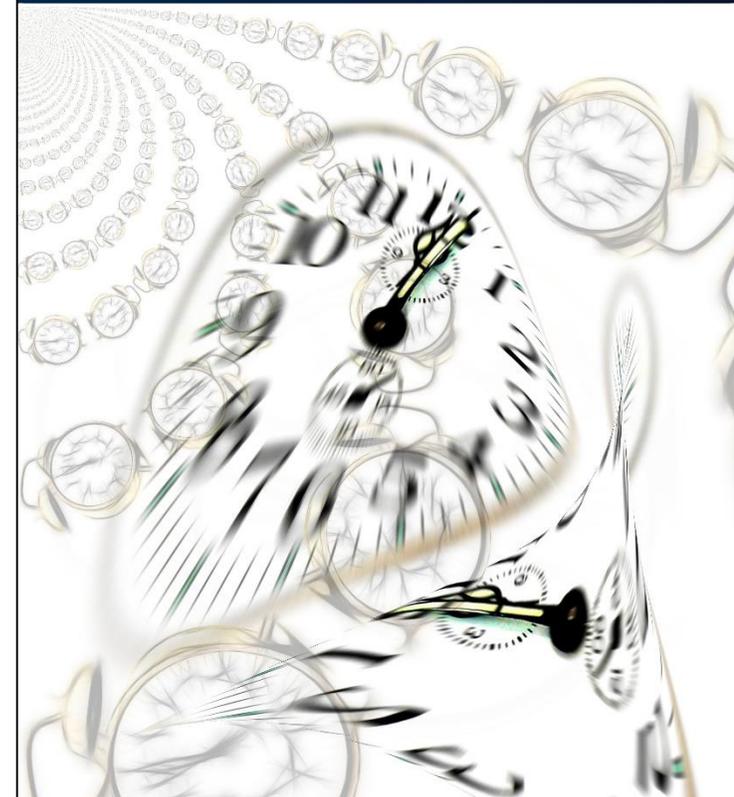

We're gonna make your next presentation a Great Presentation

Remember stock ABC?

- ★ Can you remember the three characteristics of stock ABC that I told you about earlier?
 - Cheap, has growing earnings, and is unknown

Andrew Stotz, PhD, CFA

Most presentations are bad and don't achieve their objective

- ★ Andy Goodman and Cause Communication surveyed 2,500 Americans
 - **Asked 43 closed- and open-ended questions about how good and effective presentations were**
- ★ They also evaluated several factors that can derail a presentation

Andrew Stotz, PhD, CFA

That survey said

- ★ When asked to recall presentations they had seen over the past few months, respondents said they were
 - **54% likely to see a poor presentation**
 - **25% likely to see an excellent presentation**
- ★ Meaning they were twice as likely to see a poor presentation as an excellent one

Andrew Stotz, PhD, CFA

A quote from the study

- ★ “Even if I’m interested in the topic if the speaker is boring, I’m easily distracted by other goings-on in the room like someone’s cool shoes or outfit. And then I’m totally lost thinking, ‘I need to go shopping!’”

We have all seen bad presentations!

- ★ But I have analyzed them
- ★ Here is my analysis of what makes a bad presentation, well...
- ★ ...Bad

Andrew Stotz, PhD, CFA

A bad presentation is poorly...

- ★ Written
- ★ Designed
- ★ Prepared for
- ★ Started
- ★ Executed
- ★ Ended

Andrew Stotz, PhD, CFA

A bad presentation is poorly written

- ★ It has a bad structure
- ★ Shows no clear benefit
- ★ Conveys no clear message
- ★ Has too many messages, too complicated
- ★ Gives no call to action
- ★ Shares no emotion, no risk is taken
- ★ Lacks engagement

Andrew Stotz, PhD, CFA

- ★ Written
- ★ Designed
- ★ Prepared for
- ★ Started
- ★ Executed
- ★ Ended

A bad presentation is poorly designed

- ★ It has bad slides
- ★ Has too many words
- ★ Uses text that is too small
- ★ Is full of bad graphs and visuals

Andrew Stotz, PhD, CFA

- ★ Written
- ★ **Designed**
- ★ Prepared for
- ★ Started
- ★ Executed
- ★ Ended

A bad presentation is poorly prepared for

- ★ The speaker does not understand the audience
- ★ The presentation has not been reviewed by others
- ★ The presentation has not been rehearsed
- ★ The speaker does not arrive early
- ★ The speaker makes no equipment check

Andrew Stotz, PhD, CFA

- ★ Written
- ★ Designed
- ★ **Prepared for**
- ★ Started
- ★ Executed
- ★ Ended

A bad presentation is poorly started

- ★ The speaker starts with an apology
- ★ Starts by disqualifying themselves
- ★ Makes no appeal to emotion
- ★ Shares no story
- ★ Sets no hook to grab audience attention

Andrew Stotz, PhD, CFA

- ★ Written
- ★ Designed
- ★ Prepared for
- ★ **Started**
- ★ Executed
- ★ Ended

A bad presentation is poorly executed

- ★ The speaker looks mainly at slides, even reads from them
- ★ Makes no eye contact with audience
- ★ Goes too fast
- ★ Brings no energy
- ★ Makes excessive movement
- ★ Runs over time

Why stories?

- ★ Since the beginning of time, human knowledge has spread through stories
 - **The Bible for instance is a collection of stories**
- ★ There is a reason they used stories
 - **Stories are easy to remember**
- ★ We all have stories to tell
 - **So start telling them**
- ★ Stories touch emotions
 - **Numbers and evidence rarely arouse emotion**

Andrew Stotz, PhD, CFA

To summarize, stories are...

- ★ A common tool
