Searching

You can use search to find data or apps from the main **Search Bar** or the **Launcher** tool by pressing **CTRL** – **Shift** – **Space**.

Use natural language:

 Type in the entity you want to view and include any app name you want to use or specific data set

Filter for specific data:

- Use "!" to select a content type
- Find apps or data within that content type

Smart Search:

- Type in an entity and a set of parameters will appear. Click on one to select
- Then press Tab to move onto the next parameter, once complete it will instantly perform the command

Organize your Apps

Layouts

You can access existing and pre-defined Layouts from the **My Layouts** menu to monitor the different markets you are interested in.

Select **New Layout** to create a new Layout, or select **Open Saved Layout** to access your existing Layouts.

- To Save a Layout:
- 1. Go to the App Menu
- 2. Choose Save Layout As
- 3. Give your Layout a name

Tiles

- Tiles lets you display Apps anywhere on your desktop to monitor the markets, rather than having them restricted to the Browser
- To access Tiles click on the Tiles icon
 in the Browser. The Tile Manager
 and a default display will appear on
 your screen
- To set up Tiles* from the Tiles Manager menu, select '+', then select the application you would like to add. Move it to your desired position. You now have the option to save

*Tils is only available on the installed desktop version of Refinitiv Workspace.

Other ways to access Refinitiv Workspace

Excel

Select the Refinitiv tab within the Excel ribbon.

Web

Navigate to workspace. refinitiv.com/web from your browser on any device, including tablets.

Mobile

Contact your account team to request access. Currently available for iOS 10.0 or higher only.

Support and Feedback

Please contact your administrator

Find out More

You can find videos on how to use Refinitiv Workspace here.

Refinitiv is one of the world's largest providers of financial markets data and infrastructure, serving over 40,000 institutions in approximately 190 countries. It provides leading data and insights, trading platforms, and open data and technology platforms that connect a thriving global financial markets community – driving performance in trading, investment, wealth management, regulatory compliance, market data management, enterprise risk and fighting financial crime.
